INDIA'S 1ST AYUSH INSTITUTION WITH NAAC & NABH ACCREDITATION

About KLE Ayurworld

KLE Ayurworld had its inception in the year 1933 with the philanthropic act and donation by Late Shri. B.M.Kankanawadi, who also marks the name of our Institution. Since the time of inception the institution has stood beside the mankind in healing many challenging health problems, Stood by many orphans and disabled to support not only medically but also strengthened them emotionally & not only at home but travelled miles to lend a helping hand. "KLE Shri B.M.K. Ayurveda Mahavidyalaya and Hospital" today is a name unparalleled in the field of education (UG/PG/PhD), Health and research.

'KLE Ayurworld' has ever been involved in propagating & Nurturing right Ayurveda with its unique slogan of "Blending Tradition with Technology & evolving Innovations". To continue its saga of success in organising meaningful conferences, this time its Child health care on the Board.

Kaumarabhritya (Ayurveda Pediatrics) is one of the most dominant branches among Astanga Ayurveda. There has been an exponential growth, demand & acceptance in the society about Ayurveda Pediatrics. Society has strongly recognised and accepted Kaumarabhritya practice in developmental disorders, respiratory disorders etc. The practices like Suvarna Prashana have started pulling many children to the Ayurveda health centres. Many of these kids also continue to seek health care in these centres.

Its observed that there has been quite a lag between the demanded clinical skills and executed skills. One of the reason for this being, lack of training and exposure in the subject & specialty. There is a great scope for a well trained and educated scholar in the society to provide Ayurvedic child health care. With this idea to train & to globalise Ayurveda Pediatrics, PALLAVA-2019 has been organised.

Dept of PG Studies in Kaumarabhritya of KLE Ayurveda Hospital, Belagavi is the first to start Suvarna Prashana practice in large scale in India & has moved forward to set up many specialty pediatric practices like Samvardhana for special children, Pediatric Respiratory clinic, Pediatric Dermatology clinic, Pallava Pediatric Panchakarma centre etc.

Pallava-2019 is a unique platform with complimentary blend of Knowledge and skill. A thought brought into action and reality for the first time in the Ayurveda fraternity. An opportunity not to be missed by any one who believes in growing with updated version of learning with hands on training.

Preconference workshop

4-12-2019

Pallava Sparsha Preconference workshop on Pediatric Dermatology

The Participants will be able to gain Ayurvedic knowledge on various skin disorders, Diagnostic skills & management in children.

Renowned Ayurveda practitioners in the field of Pediatric Dermatology will be with the participants to give insight and depth of clinical pediatric dermatology
